

Build Strong & Safe Houses

It is important to feel safe in your home. If your house is not strong or safe, stay at a safe place until it is repaired. Stay alert and be aware of what to do in case of disaster.

Build houses that have deep and strong foundations and in a safe place.

Humanitarian Assistance is Free

"Money, work, goods, services, sexual favours or any other demands in exchange for humanitarian assistance is forbidden by humanitarian actors. Assistance is for those most in need of help."
