

# Plastic sheeting

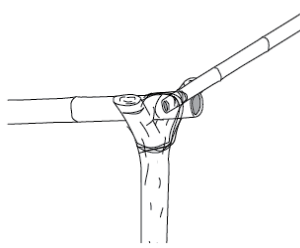

## Make it last longer

Ensure no sharp points damage the plastic sheet.

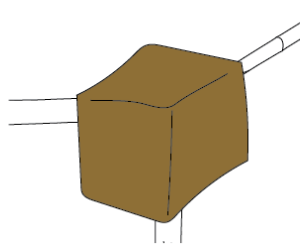

**✗ Bad**

**✓ Better**

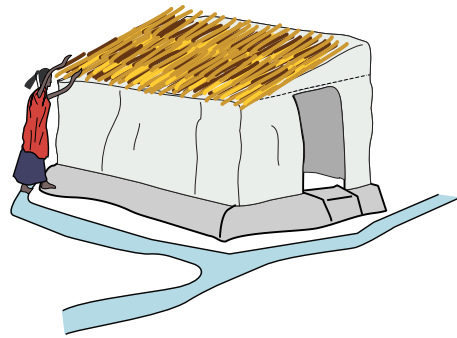

**✓✓ Good**

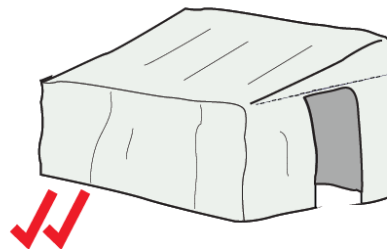

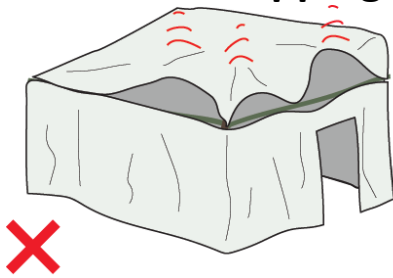

Use cardboard /other materials between sheet and frame

Protect tent from the sun, use any materials available

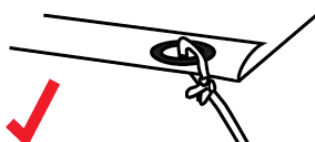

Stop plastic sheet flapping in the wind – It will get damaged

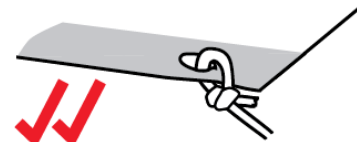

Ways of fixing by using rope

No Reinforcement

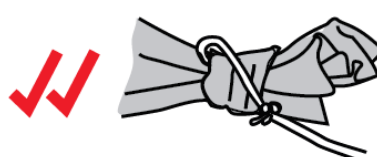

Rope through Eyelet

Rope through reinforcement band

Place Stone Inside

Make Knot with Rope Inside
